## **BAHEP welcomes Clark Construction, LLC**

**BAY AREA HOUSTON, TEXAS** – Bay Area Houston Economic Partnership (BAHEP) is proud to welcome its newest member, Clark Construction. Since 1906, Clark Construction has grown from a small excavation company into one of the nation’s leading building and infrastructure firms.

President of Bay Area Houston Economic Partnership, Brian Freedman, shared “We’re thrilled to embark on this new partnership with Clark Construction; Their diverse range of projects and clientele presents an incredible opportunity for collaboration, and we’re eager to contribute our expertise while growing together.”

Jeffrey Tavis, Superintendent of Clark Construction, stated “Clark Construction is excited to join the Bay Area Houston Economic Partnership to collaborate on strengthening regional infrastructure, fostering economic growth, and supporting local communities. Our commitment to sustainability, innovation, and strategic partnership aligns with the mission of the organization, and we look forward to building a lasting impact together.”

### **What does Clark Construction Offer?**

Located in Harris County, Texas, Clark Construction specializes in large-scale projects; deliverables include world-class hospitals, museums, transportation networks, commercial and industrial developments. Committed to excellence, safety, and sustainability, Clark Construction fosters innovation and inclusion across several markets. Clark Construction offers programs, including the Strategic Partnership Program which enables them to support small businesses and workforce development. Clark Construction also prioritizes community engagement, with employees volunteering over 10,000 hours annually to support local philanthropic initiatives, reinforcing their dedication to building stronger, more resilient communities.

Serving a diverse clientele across both public and private sectors, Clark Construction delivers projects in markets such as healthcare, transportation, government, education, museums, commercial, manufacturing, industrial, and technological. Notable projects in the Houston region include New East Concourse and Main Terminal Expansion of William P. Hobby Airport, Ellington Airport Traffic Control Tower and Utility Building, MD Anderson Cancer Center,

1500 Louisiana in Downtown Houston (40 story property with trading, space, retail space, auditorium, and a sky bridge that connects the office towers), Bush International Airport Terminal B Transformation and the Harris County Joint Processing Center.
