BAHEP welcomes Mission Ops

BAY AREA HOUSTON, TEXAS – The Bay Area Houston Economic Partnership (BAHEP) is proud to announce Mission Ops, a digital engineering company, as its newest member.

As a trusted partner in the defense, space, and healthcare industries, Mission Ops specializes in integrating cybersecurity, risk and governance, and compliance into enterprise and mission-critical systems to solve complex challenges in the Bay Area and beyond.

Brian Freedman, President of BAHEP, shared “We are thrilled to welcome Mission Ops to BAHEP. Mission Ops’ diverse expertise and strong commitment to their work is a valuable asset to this community and will be a great addition to the Bay Area Houston Economic Partnership.”

Lauren Goodwin, Founder and CEO of Mission Ops, stated “BAHEP’s leadership plays a pivotal role in inspiring industry and policymakers to pursue practical innovation over hype, anchored in a deeper purpose of service to others. This visionary approach aligns closely with the values that drive Mission Ops and was a key factor in our decision to join BAHEP. We are excited to collaborate with and learn from this forward-thinking community as we shape the future together.”

About Mission Ops

Mission Ops is a digital engineering company that leverages artificial intelligence to build secure autonomous systems in defense, space, and healthcare industries. Mission Ops specializes in applying artificial intelligence, engineering, and data science to automate routine tasks, enhance resilience, and drive sustainable success in high-stakes environments. With deep roots in both government and commercial sectors, the Mission Ops team combines expertise in aerospace engineering, cybersecurity, cognitive neuroscience, and artificial intelligence. From securing critical infrastructure to developing cutting-edge digital engineering platforms, Mission Ops brings together diverse skills to solve some of the world’s most complex challenges.
