BAHEP welcomes Paragon Space Development Corporation

BAY AREA HOUSTON, TEXAS – The Bay Area Houston Economic Partnership (BAHEP) is excited to welcome Paragon Space Development Corporation, a leader in environmental control and life support systems for extreme environments. Paragon has contributed to every major spaceflight program since 1999 with advanced thermal control, air revitalization, and life support technologies designed to protect both people and critical equipment.

Brian Freedman, President of BAHEP, shared “Paragon Space Development Corporation brings deep technical expertise in environmental control and life support systems. These capabilities are fundamental to human space exploration and advanced aerospace operations. Their work aligns closely with the aerospace strengths of our region, and we are pleased to welcome them to BAHEP.”

Mark Greeley, President & CEO of Paragon Space Development Corporation, commented, “We are thrilled to join BAHEP and strengthen our engagement with the Bay Area Houston aerospace community. The region’s concentration of spaceflight expertise and commercial space activity makes it an important location for collaboration.”

About Paragon Space Development Corporation

Founded in 1993, Paragon develops innovative life support and thermal control solutions for space, defense, and commercial markets. They combine deep expertise in engineering, design, analysis, and manufacturing with patented ECLSS Human-Rating and testing, facilities to deliver affordable, human-rated technologies. Paragon has contributed to every major human spaceflight program since 1999, with hardware flown on NASA’s Orion, Space Shuttle, and ISS, as well as Soyuz, Mir, and commercial spacecraft. Driven by an adventurous spirit, their diverse team of scientists, engineers, and technologists thrives in an inclusive culture where they tackle the hardest challenges and turn the impossible into reality for humanity’s future exploration.
